PE Exam Tips

#16 Get **support** from family and friends.

Sponsored by [PPI PROPASS.COM](http://PPIPROPASS.COM)

#15 Study exam **format** and subject **outline**.

The screenshot shows the NCEES website with the following content:

- Header:** NCEES logo, navigation menu (home, about, engineering, surveying, licensure, news, contact), and social media icons.
- Main Content:**
 - Left Column:** "NCEES engineering exam registration" section with a sub-header and introductory text.
 - Right Column:** "Looking to practice in multiple states?" section with a sub-header and text.
- Footer:** "Sponsored by PPI PROPASS.COM" and a circular logo.

#14 Read **advice** from previous examinees in your discipline.

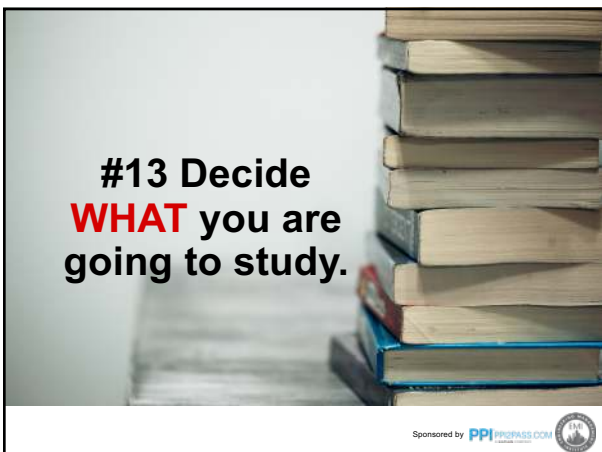

"Tab your reference manual (with permanent tabs, not sticky removable tabs, which often aren't allowed) so you can find things fast. Speed is everything."

"Don't leave a single problem blank—there's no penalty for guessing."

"Start by working practice problems, and then refer to your reference manual to find out how to solve these problems. Don't just read through the book and then work the problems. You will spend a lot more time and not get much more out of your studying."
